

# 10 things you must to know

## Before you buy Your Windows & Doors

- **Double glazing is subject to strict building regulations – make sure you adhere to them. (FENSA Registered Company Only)**
- **Safety, security and energy conservation will be enhanced.**
- **Your chosen style should complement and enhance your property.**
- **Cheaper prices often come at the expense of fewer opening windows.**
- **Check whether PVCu windows are fully welded or if parts of it are mechanically fixed. (Welded Recommended)**
- **Get two or three quotes before taking a decision and check suppliers' guarantees. (10 Year Insurance Backed Recommended)**
- **28mm sealed units will give you better insulation and equally efficient option for sound insulation.**
- **Upgrade to the new low e-glass planitherm, combined with argon gas.**
- **Check whether windows have any special 'easy escape' or 'fire escape' features.**
- **Special hinges can be fitted to help with this but are not usually standard items and increase the cost.**
- **Ask for energy efficient spacer bar.**
